

Steps to set A. Aliases name to the wallet B. +Add Token HUGG to program InterStellar know

1. Go to <https://interstellar.exchange>
And then ---

2. Click at Login/Signup
And then ---

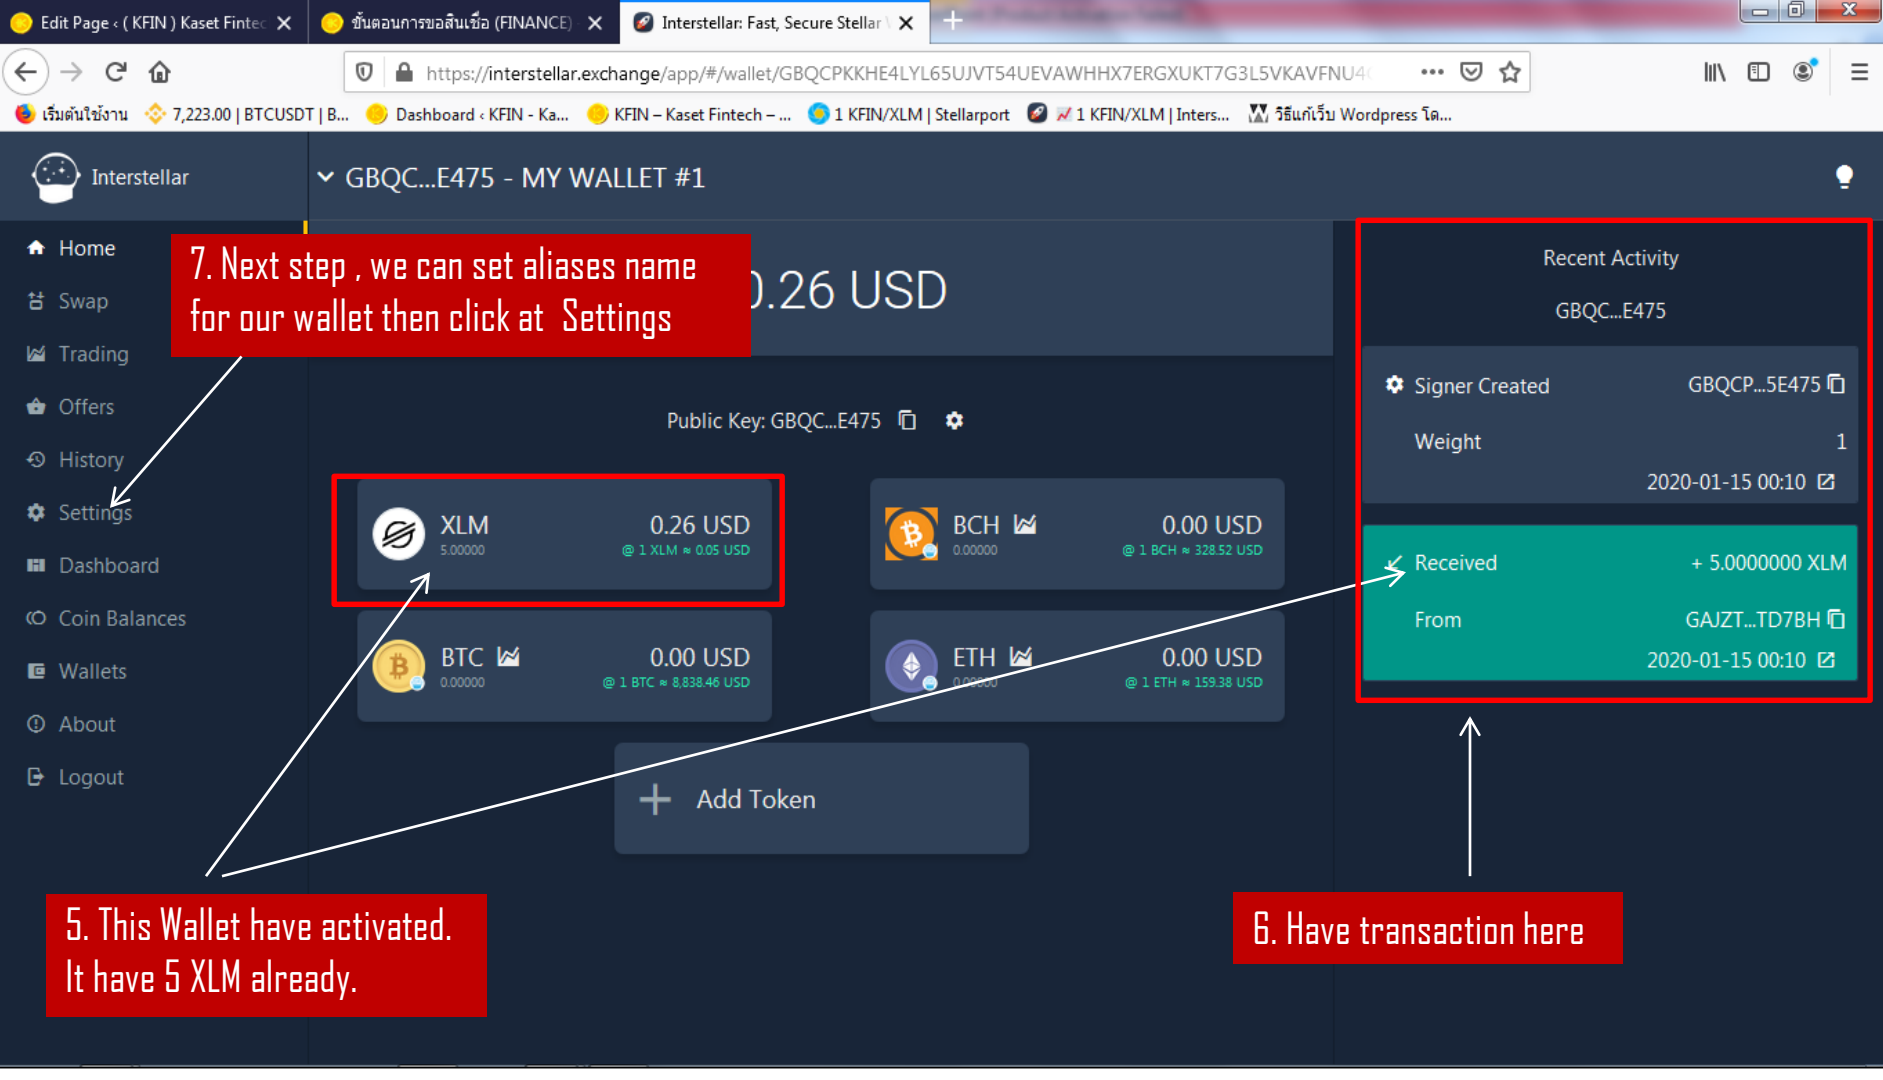

The screenshot shows the Interstellar website homepage. The URL bar displays <https://interstellar.exchange>. The page features the Interstellar logo and navigation links for 'Login/Signup' and 'Ma'. Below the main heading, there is a sub-heading 'Digital Currency Exper' and a brief description: 'Easily Create, Send, Receive, Swap and Trade Digital Currencies and other Tokenized Assets at the speed of light. Availa on the go.' The background includes an illustration of people working at computers.

3. After that, will display this screen then input the password the same as last manual for the example Ww04042540

4. Then click at Login to continue ---

The screenshot shows the 'Session Password' login page on Interstellar. The page prompts the user to 'Enter your password below to resume your session.' The password field contains the text 'Ww04042540'. A blue 'Login' button is visible below the password field. The page also includes links for 'Session Login', 'Ledger Login', and 'Forgot Password?'.

7. Next step, we can set aliases name for our wallet then click at Settings

XLM 5.00000 0.26 USD
@ 1 XLM ≈ 0.05 USD

5. This Wallet have activated. It have 5 XLM already.

Federation

Federation names are an easier way to represent your wallet's public key.

When you send or someone else sends lumens to your primary account, the lumens can be sent to yourname*interstellar.exchange instead of typing in a long, error-prone string of random characters which represents your public key.
